-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-26 have been examined.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
3. The applicant is requested to review the specification and update the status of all co-pending applications made mention of, replacing attorney docket numbers with current U.S. application or patent numbers when appropriate. References to U.S. applications or patents should make it clear as to what the number refers (e.g. U.S. Patent No. #), instead of listing only the number.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1- 26 rejected under 35 U.S.C. 102(b) as being anticipated by Verisign Authentication Services.
6. Regarding Claims 1 and 7: Service provider containing a plurality of entity sites (Verisign Authentication Services lines 2-5)
Conglomerated certificate provided by a third party (Verisign Authentication Services lines 2-5)

Art Unit: 2134

Means for entity to convert conglomerated certificate to individual certificate for the entities site (Verisign Authentication Services lines 2-6)

7. Regarding Claims 2, 8, 9, 10, 11, 12, and 18: Plurality of conversion tokens pre-purchased from trusted third party (Verisign Authentication Services lines 5-10) The system as provided for in order to provide for functionality must be able to allow the client to purchase the product prior to use thus providing for pre-purchasing the rights of use. This pre-purchase is comprised of means for the dissemination of such rights to the client as such there is a tool that must provide a code for proper allowance of activation and further to disallow usage beyond that which is normally granted thereby decrementing the rights of that code after initial allowance of use.

8. Regarding Claims 3, 5, 19, and 22: seal evidencing the entity site's authentication displayed on client computer (Verisign Authentication Services lines 3-6) a seal is representative of a plug-in-module as the seal must be downloaded and plugged into the browser for purposes of display.

9. Regarding Claims 4, 6, 20, 21, 23, and 24: clicking the seal results in authentication information being displayed (Verisign Authentication Services lines 5-10, Verisign THEFLAGBOX.com lines 1-24) As stated when the seal is activated it displays the provided splash page as defined. Additionally, as stated previously a seal is representative of a plug-in-module as it provides for the exact same functionality of displaying authentication evidence and activation upon clicking by the user.

10. Regarding Claims 13, 14, 15, 16, and 17: Tool appended to URL of a computer, domain name presented to third party, domain name used to access whois database, proof of right

Art Unit: 2134

database accessed based upon provided information (Verisign THEFLAGBOX.com lines 1-24)

As defined by the provided document the domain name is authenticated via the prescribed investigation that is inclusive of all that is stated above, the stated investigation as provided for and the specified tool must be appended in a manner consistent with attachment with the URL of the participant computers.

11. Claims 25 and 26 are computer readable medium implementations of claims 1-24. As such claims 25 and 26 are rejected on the same basis.

Conclusion

12. The reference denoted as THEFLAGBOX.com within the IDS and References cited is used as a definition of the stated splash page presented within the Verisign Authentication Services document.

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is reminded that in amending in response to a rejection of claims, the patentable novelty must be clearly shown in view of the state of art disclosed by the references cited and the objections made. Applicant must show how the amendments avoid such references and objections. See 37 CFR 1.111(c).
